

## Consent and Notification for Video and Photography

### Closed Circuit Television Recording:

The Child Development Center utilizes Closed Circuit Televisions (CCTV's) for the recording and monitoring all children, staff and visitors entering and exiting the facility for safety and accountability purposes. All CCTV's are located at the front desk and are actively recording 24/7.

### Media Photography:

The Child Development Center does NOT permit photos, videos or digital images of children/youth participating in the program on personal cell phones or other mobile devices or cameras. All cameras used for photography are property of the Child Development Center and remain in the facility at all times.

Parents are required to authorize the use of all photos captured at the CDC. The use of photos helps meet the requirements for NAEYC accreditation and Air Force Inspection. In addition it allows the CDC share the opportunities offered for Military Members and Federal Employees.

### **\*\*Please initial areas to confirm authorization:**

\_\_\_\_ **Classroom use and Center Bulletin Boards**

\_\_\_\_ **LA Air Force Base Magazine**

\_\_\_\_ **MilitaryChildCare.com Advertisement**  
(\*center waitlist website)

\_\_\_\_ **Parent Advisory Board Facebook**
